Mumbai, India | +91 7767881505 | ahmed.maazin7@gmail.com | linkedin.com/in/maazinahmed

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications across the complete stack, from REST API design and cloud infrastructure to responsive front-end interfaces. Proven ability to reduce system overhead and cut costs across Python, JavaScript, and cloud-native environments. Holds dual Oracle Cloud certifications with direct exposure to AWS, containerised deployments, and AI-integrated tooling. Currently pursuing MCA at Vishwakarma University with a consistent academic record alongside real-world project delivery.

TECHNICAL SKILLS

Languages & Frameworks Python, JavaScript, C++, React, Node.js
Databases MongoDB, PostgreSQL, AWS DynamoDB
Tools & Platforms AWS, Docker, Git, Postman
Development Practices Agile, RESTful APIs, Modular Architecture, Responsive Web Design

PROJECTS

Job Portal System | MongoDB, Express, React, Node.js (MERN)

- Architected a full-stack job portal for connecting job seekers with employers, reducing average time-to-apply by 40% through an intuitive multi-step application flow.
- Designed a role-based authentication system (JWT) supporting 3 user types (candidates, recruiters, admins), eliminating unauthorised access incidents post-launch.
- Optimised MongoDB aggregation queries with pagination, cutting average API response time by 35% under concurrent load.

Prep-Q AI Interview Preparation Tool | Node.js, Redis, Grok API | prepq.vercel.app

- Built an AI-powered mock interview platform that dynamically generates role-specific questions using the Grok API, reducing manual prep time by an estimated 60%.
- Implemented Redis-based rate limiting for API cost control, capping usage per session and keeping monthly spend within a defined budget threshold.
- Delivered a responsive single-page interface with instant answer feedback, improving session completion rates versus static question banks.

AI Tools Marketplace | React, REST APIs

- Developed a centralised marketplace aggregating 20+ AI tools under a single interface, eliminating the need to switch between multiple platforms for common tasks.
- Built an intent-detection routing engine that classifies user queries and dispatches to the most token-efficient model, reducing average token consumption by 30%.
- Designed a unified API abstraction layer normalising responses from multiple providers, enabling new tool integrations in under 2 hours with zero UI changes.

EDUCATION

Master of Computer Applications (MCA)

Vishwakarma University, Pune | CGPA: 7.86 / 10

2025 – 2027 (Pursuing)

Bachelor of Computer Applications (BCA)

Savitribai Phule Pune University, Pune | CGPA: 7.15 / 10

2022 – 2025

HSC (Class XII) — Maharashtra State Board

KHMW Junior College, Mumbai | 75.83%

2020 – 2022

SSC (Class X) — CBSE

Vidyashilp Public School, Pune | 70.6%

2020

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Architect Associate | Oracle
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate | Oracle
- Ultimate Web Development Course 2025: Build Modern Websites | Udemy

ADDITIONAL INFORMATION

Languages	English (Fluent), Hindi (Native), French (Basic), Arabic (Basic)
Soft Skills	Agile Collaboration, Problem-Solving, Adaptability, Communication, Critical Thinking
Interests	Football, Reading, Language Learning
